

Identity Cubicle Range

This stunning flush-fronted system creates an exclusive washroom experience while supporting value led project requirements.

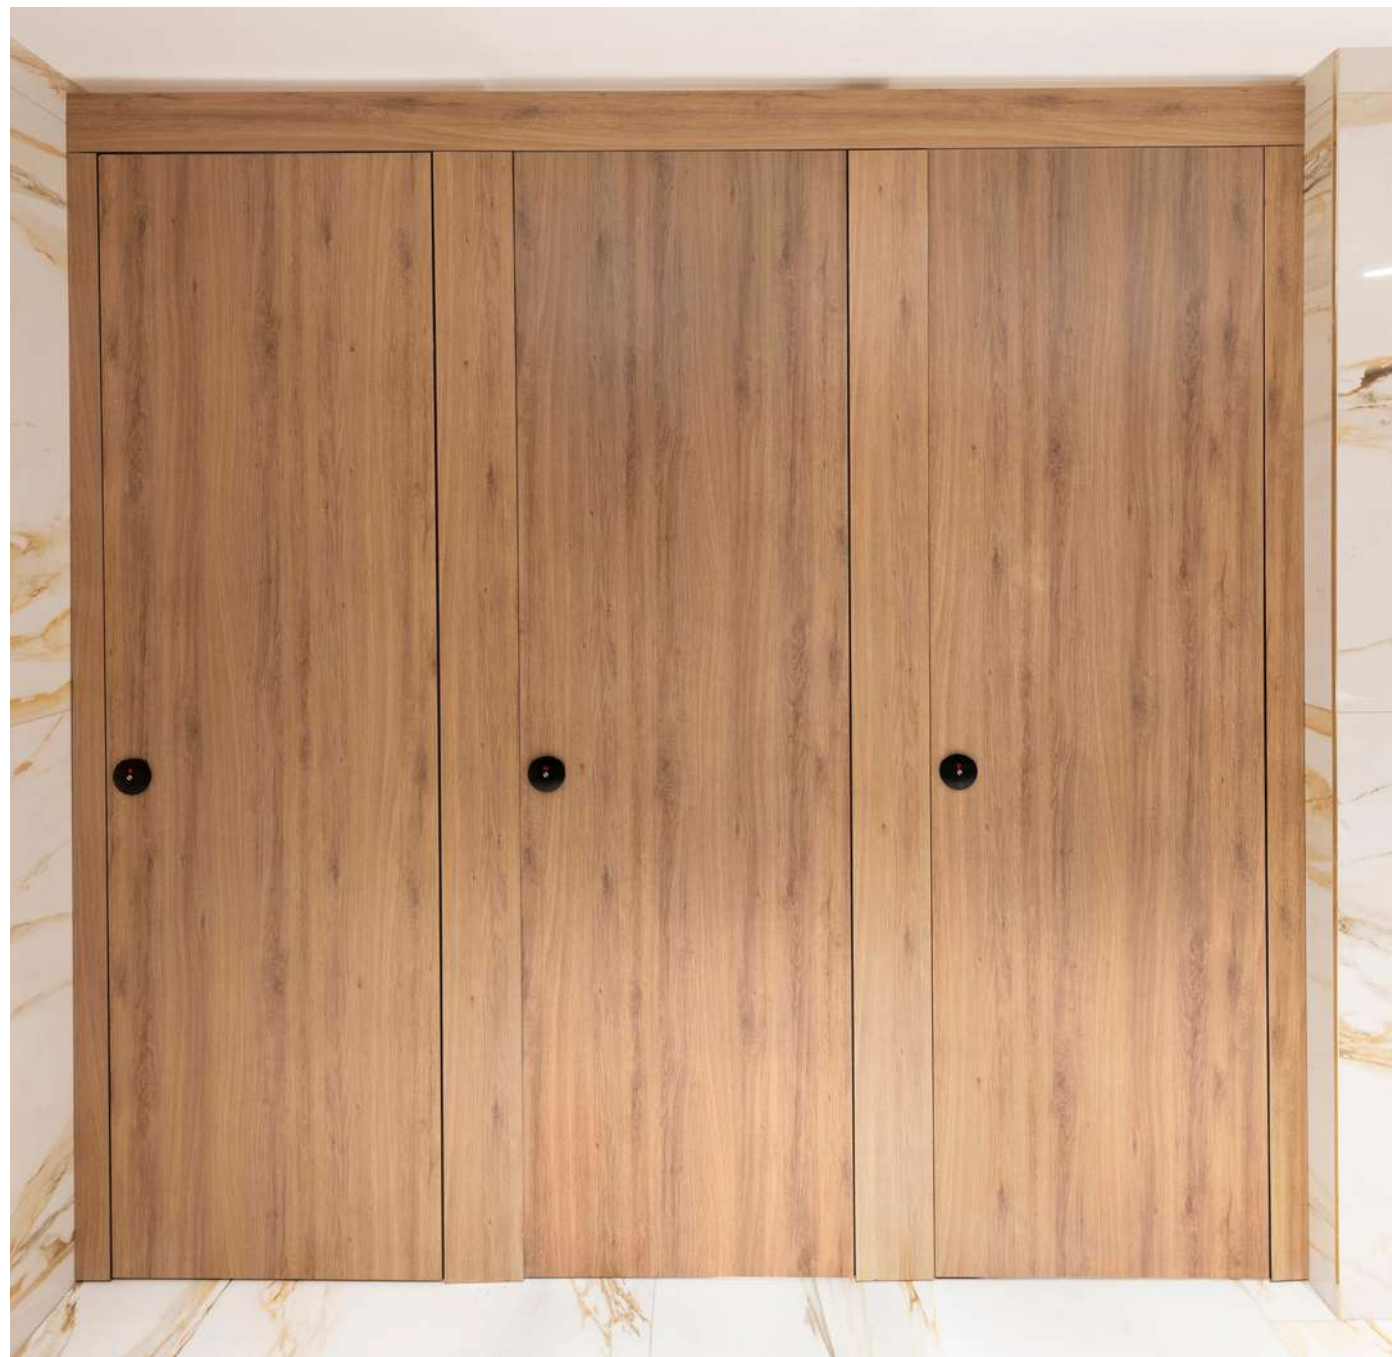

Features

- Value engineered option
- Closing strip replaces traditional rebate
- Fabricated from 19mm HPL or 12mm CGL materials

Speak to our team to
enquire about this range

The Identity cubicle range combines strength, style, and accessibility in one versatile system.

Its standout flush-fronted style is ideal for mixed use venues, bars, restaurants, hotels, golf clubs and beyond.

By replacing the rebate found in traditional flush cubicles with a closing strip, it is a value engineered solution that opens flush fronted style cubicles to more projects than ever before.

At Concept Washroom, we understand the pivotal role washrooms play in enhancing hospitality spaces. Our solutions are designed to help specifiers achieve their design objectives, offering invaluable support to architects, designers, and end users in creating optimal washroom environments.

Panel Material

Identity cubicles can be fabricated from 19mm High Pressure Laminate (HPL) or 12mm Compact Grade Laminate, depending on the project's durability and design needs.

CGL is an impermeable laminate material that provides excellent performance in heavy traffic washrooms, with strong resistance to impact and daily use.

HPL offers high resistance to water while providing a wide range of finish options to suit your design.

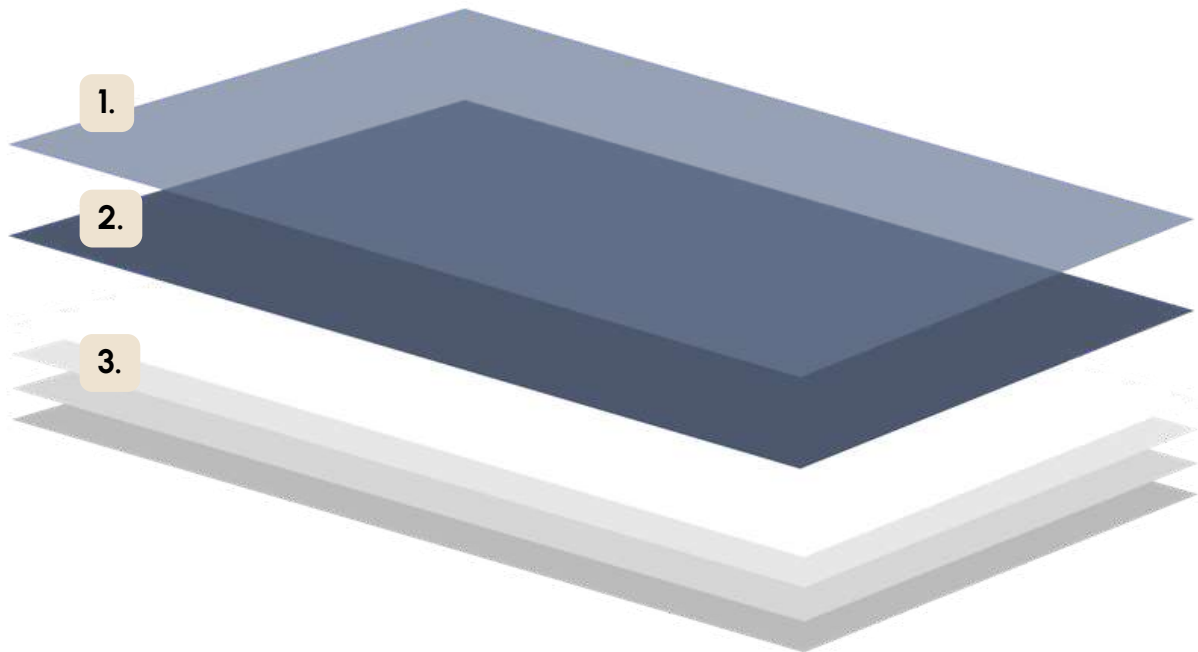

Designed with longevity and style in mind, the Identity range combines robust construction with a refined flush-front aesthetic, making it a value-engineered solution for restaurant, and hotel washrooms alike.

High Pressure Laminate

High Pressure Laminate (HPL) is bonded onto a substrate, offering high surface resistance to scratches, abrasion, impact and humidity.

HPL Key

- 1. Melamine Overlay
- 2. Décor Paper
- 3. Kraft Paper (Approx. 50 layers)

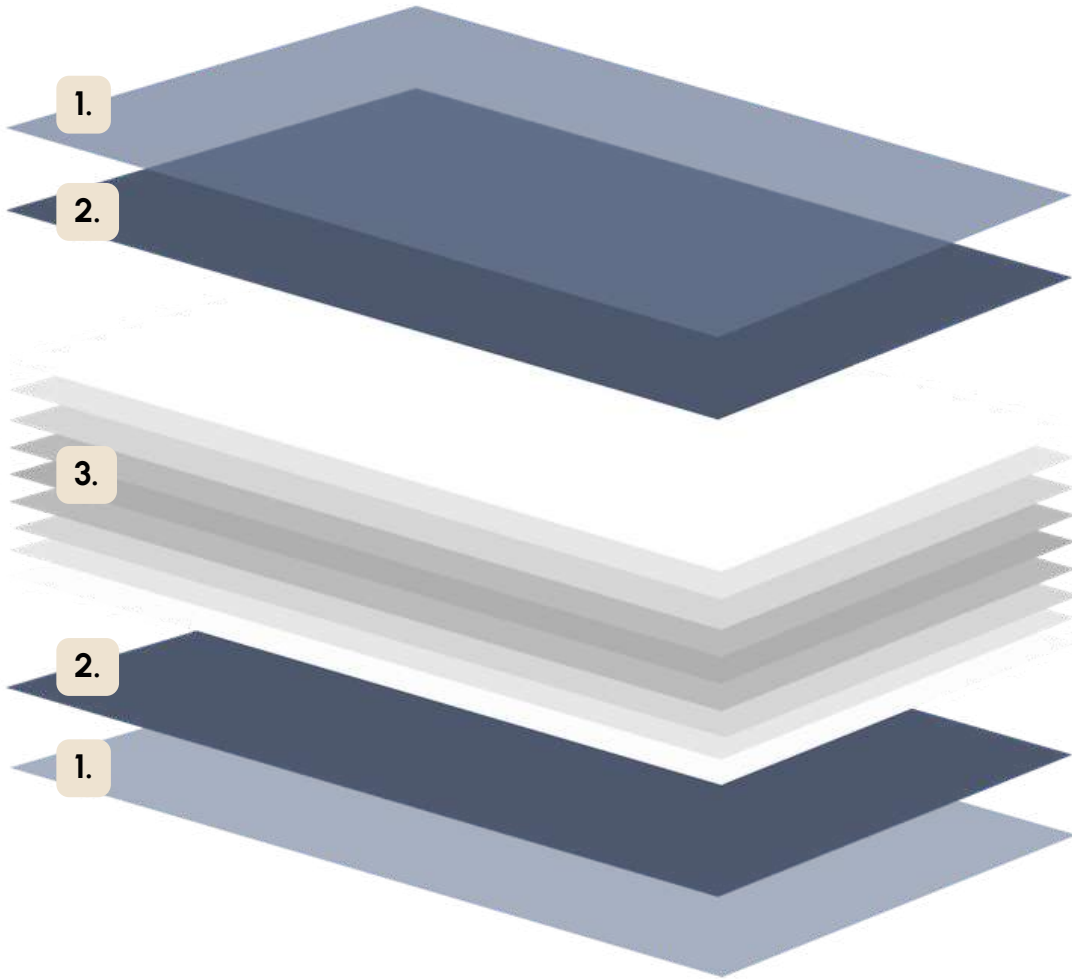

Compact Grade Laminate

Compact Grade Laminate (CGL) is made from multiple layers of kraft paper, impregnated with resin, then compressed under high pressure into a solid black core, ideal for washrooms with high-traffic and wet conditions.

CGL Key

- 1. Melamine Overlay
- 2. Décor Paper
- 3. Kraft Paper (Approx. 50 layers)

Panel Material

Designed with longevity and style in mind, the Identity range is an excellent value engineered alternative to traditional flush fronted cubicle systems, making it ideal for hospitality washroom schemes that aim to create a strong visual impact.

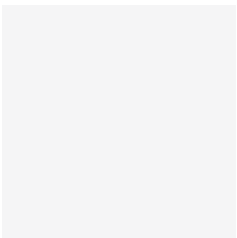

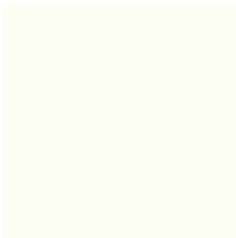

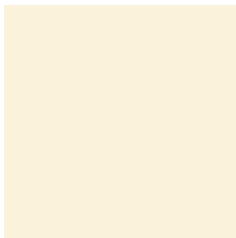

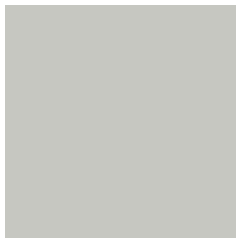

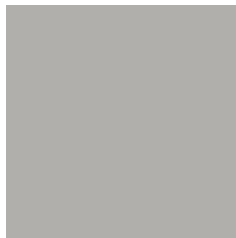

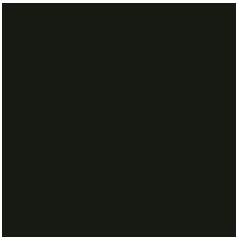

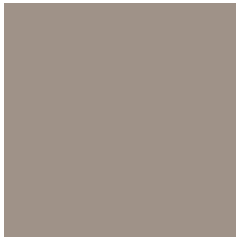

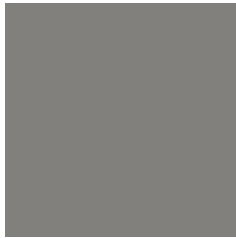

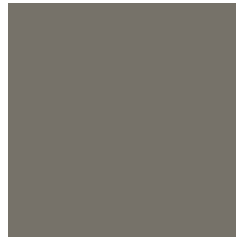

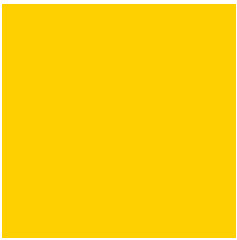

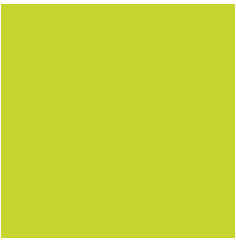

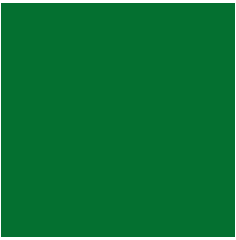

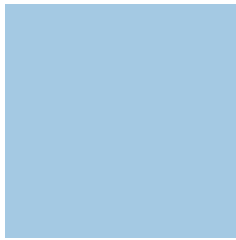

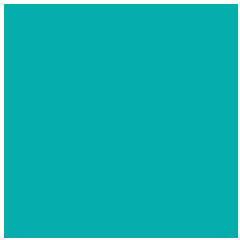

Identity cubicles can be fabricated from 19mm High Pressure Laminate (HPL) or 12mm Compact Grade Laminate (CGL), depending on the durability and design requirements of the project.

HPL offers resistance to impact moisture while providing a wide range of finish options to suit your desired scheme.

Whereas CGL is an impermeable laminate material that provides excellent performance in heavy traffic washrooms, with strong resistance to impact and daily use.

Identity Colour Range by Fundermax

Fundermax laminates used in our Identity cubicles feature a fine eggshell finish with a smooth, tactile feel that enhances its appearance.

Ironmongery Fittings

Identity system ironmongery is available in a number of powder coated options as standard to match or contrast chosen laminate.

- This includes:
- Rise and fall hinges
 - Indicator bolts
 - Partition supports
 - Brackets
 - Coat hooks
 - Closing strips
 - L channels

Our Standard Ironmongery Finishes

Other Powder Coated ironmongery finishes are available upon request.

Powder Coated Nickel

Powder Coated Copper Effect

Powder Coated Bronze Effect

Powder Coated Brass Effect

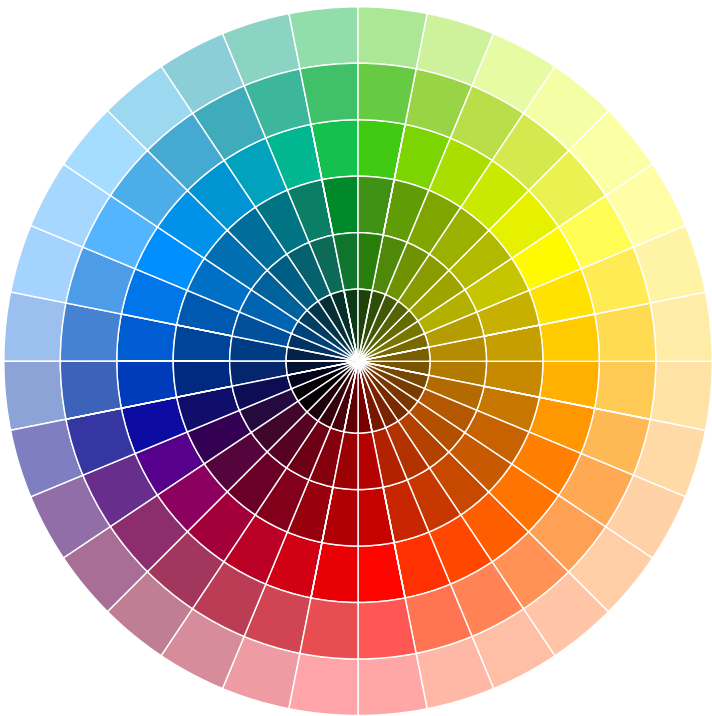

Powder Coated Matt Black

Powder Coated Matt Light Grey

Bespoke Ironmongery Finishes

For large-scale washroom projects featuring 20 cubicles or more, we offer the option to powder coat hardware to match any RAL colour.

This allows for greater design flexibility and to create a cohesive, custom finish that aligns perfectly with the wider interior scheme or brand palette.

Elevating everyday spaces.

We're here to help. Speak to our specification team for project guidance, technical requirements, and expert insight on our products and how they fit into your next design.
