Premium glass shower cubicles for forward-thinking offices.

Olympus Glass is our premium glass shower cubicle system, designed for commercial spaces that require durability, hygiene, and a timeless style. While laminate panels can fade, swell, or show wear over time, glass stays exactly as it should - sleek, smooth, and effortlessly cool.

Made from toughened Ritec-coated glass and corrosion-resistant ironmongery, Olympus maintains its crisp aesthetic for years to come. It resists the visible ageing that often affects other materials, making it a smart long-term choice for changing rooms and End of Trip facilities in high-end office spaces and co-working environments.

10mm Toughened Glass Material

Designed with longevity and style in mind, Olympus uses marine grade fittings and toughened glass for a durable yet stunning washroom aesthetic designed for demanding shower areas.

Toughened Glass offers excellent performance in high-traffic environments across a range of sectors, with strong resistance to impact and daily use.

Ironmongery Fittings

Suited for high-use shower facilities, corrosion-resistant 316 marine grade stainless steel ironmongery is required for the Olympus Glass range:

Stainless Steel
316 marine grade

Olympus Glass Accessories By The Splash Lab

At Concept, we offer a curated range of accessories from The Splash Lab who are known for their minimalist design and high performance.

By specifying these products through us, our clients benefit from unrivalled product pricing, expert project support, and seamless compatibility with our cubicle and vanity systems.
